PET MAKER
BY ADRIANNA CUEVAS

OK, class. Later on tonight, we're gonna have a science fair. And you're gonna have a partner to work with you, and whoever wins first prize will get a teddy bear with a labcoat.
Cool!
I need to get that one once I got first place.
Wow! Amazing!
Now that you understood what you're doing, I'm gonna list all the partners. Heath and Abbey, you two are working on your ice sculptures.
Yes!
Clawdeen and Toralei, you two are making a instrument. Clawd and Drac, you two are gonna make those dancing shoes with witchcraft.
Clawd, if I dare to lose my hair power and faint, please save me.
And finally, Cleo and Frankie, you two will be working on your inventions.
One must admit, Frankie, we're couples.
You know it!
Have a great weekend, and good luck!
DING DONG!
Wanna meet up in my house?

And finally, Cleo and Frankie, what have you made?
Frankie and I have made something that can create your pets! Presenting...
...Pet Maker, the most wonderful invention that money can buy!
THE PET MAKER
To get started, you decide what pet you need to create, and you have to find the right body that matches.
